**REMARKS**

In the Office Action dated November 16, 2005, claims 1-20 are pending. In the Response of September 6<sup>th</sup>, 2005, the Applicants elected Group I without traverse. Applicants also elected, with respect to paragraph 6 of the Previous Office Action of September 6, 2005, species A. to the embodiment using a passive off-board vehicle setting update service. Applicants further elected, with respect to paragraph 7 of the Previous Office Action, species C. to the embodiment wherein updating said at least one setting is performed in response to at least one bar code.

The Current Office Action states that Applicants failed to elect a single species with respect to paragraphs 8 and 9 of the Previous Office Action. Applicants submit that they did elect a single species with respect to paragraphs 8 and 9 in the September 6<sup>th</sup> Response and that such election is restated herein.

With respect to paragraph 8 of the Previous Office Action, Applicants elect the embodiment wherein said vision sensor is selected from a charged-couple device vision sensor only. Applicants submit that claim 2 is readable thereon.

With respect to paragraph 9 of the Previous Office Action, Applicants elect the species directed to a controller that adjusts a memory setting only and to a controller that updates a software setting only. Applicants submit that claims 9 and 10 are readable thereon.

For the above-stated elections see paragraphs 5 and 6 of the September 6<sup>th</sup> Response.
